Class sizes are climbing. How are we going to fix/ solve this problem?

(Please review attached Handout- lots of good information

3 pages of charts for each high school in the district.

Are students are performing poorly because of this.

Questions: Isn't this problem a legislative issue/ when you are looking at the big picture?

Does anyone have ideas/suggestions to propose to solve/fix the problem?

5. Sandra Buendia

a. Review fees- review email with all fees – we will be voting in January

AP Art Studio \$35 per semester (Cost of Materials)

World Languages \$10 increase of Testing- Not approved by SIC

Items we need to address as a community- people that do not fit the "Fee Waiver" mold. Many are in this situation, on the border. How do we help them? Proposal – payment plan on line for fees (split payment) Sandra works with these people on a case by case basis. No one situation is the same. They are all unique. It was also stated that there needs to be "buy- in" from the family and student a sense of responsibility.

a. Janet Gleave- (this is not her complaint- she is being voice for other concerned parents)

“Cheerleader Movements/ song and lyrics” – Parents felt music and dancing was degrading to women and not appropriate for family function. Song mentioned was “Bad Girls” and not the version of the song by Donna Summer.

Parent voiced it was JV cheerleaders – not picked by Kim Caputo (Head coach) and song was edited version. Other parent voiced it is on her shoulders and it wasn’t the edited version.

Should we let the “Cheerleaders that represent East move and dance inappropriately at Games?”

Other parents ask about music before and during games. It was explained about tradition.

Greg said he will make sure songs are the edited versions played at games. Have the administration review. Get the songs played on school iPod to make sure edited version is

played.

- Greg Maughan spoke up and said he will talk to the faculty. He or Whitney will get back to her on some solutions.
- Others commented that it is okay if they were told before the day before the holiday and assignment was not due the day they return to school

a. Land Trust update:

3 goals:

- 1) Narrow gap/ opportunities AVID
28 faculty attended AVID training
- 2) Raise ACT scores
- 3) Communication- Newsletter
Faculty using APPS/testing /Emails to communicate more efficiently
-New ACT PREP Class after school- (Minority and low scores 7/8 week- taught by Ms. Rebecca Richardson. Funded by a Foundation so they set the qualifications. Limited number in class.

See 2016 Legislative Session – related to Land Trust monies for next year 2016 General Legislative Session Both bills - SJR 12 and SB109 - related to more prudent management and distribution of the permanent fund passed. This is the fund that generates revenue for the School LAND Trust Program. Together, the two bills will stabilize and increase the annual distribution to schools if the constitutional amendment created by SJR 12 passes in the November election. Historically, the distribution has been between 2 and 2.5% annually. The investment board believes 4% more accurately reflects their legal responsibility to balance the benefit to current and future school children.

SJR 12 Proposal to Amend Utah Constitution – Changes to School Funds (Sponsor: Senator Millner) is a constitutional change. It clarifies that today's investments return earnings other than just interest and dividends. It caps any distribution at 4% of the market value of the fund to protect the fund from over distribution. This bill will be on the ballot next November. It is important that councils help educate parents, educators, and community members about what the change will accomplish for schools. It passed the legislature with a unanimous vote.

SB 109 School and Institutional Trust Lands Amendments (Sponsor: Senator Millner) puts in code the distribution policy. The policy is based on the market value of the fund over three years and adds a component for both student growth and inflation. If that number is higher than the 4% cap, the distribution for the year would be limited to 4%.

HB 343 School Administration Amendments (Sponsor: Representative Stratton) passed with a unanimous vote. It doesn't change anything in current practice. It clarifies that when school community councils hold elections in the spring, the parent of an incoming student may both run for the council and vote. It clarifies that professional development plans and reading achievement plans are part of the School Improvement Plans councils review and approve annually.

2SHB 277 Personalized Learning and Teaching Amendments (Sponsor: Representative Knotwell) appropriates \$9,652,400 ongoing funds and \$3,000,000 in one time funds to districts/LEAs through Digital Teaching and Learning Grants. Councils may want to understand what districts/LEAs intend to do with this grant money if councils have been spending School LAND Trust funds on digital related goals.

Salt Lake City School District Board of Education Announces the Appointment of a Veteran Educator of Diverse Suburban Schools as its new Superintendent

Dr. Alexa Cunningham will become the new Superintendent of Schools on July 1.

Alexa Cunningham(Salt Lake City) - After a five-month search and interview process, the Salt Lake City School District Board of Education announced that Alexa Cunningham, Ph. D., has been selected as the new Superintendent of Schools. Cunningham, a 27-year veteran in education, has served as superintendent for the Tolleson Union High School District (TUHSD) in Tolleson, Arizona since 2011. Cunningham has prepared a Superintendent's Entry Plan for the first 90 days on the job and beyond.

The plan outlines how Cunningham will work with the school board and executive leadership to meet and listen to students, staff, parents, and community members to learn about the district's successes and needs. She has stated she plans to be visible in the classrooms and spend time each week with school leaders discussing teaching and learning. The Entry Plan focuses on five pillars: achievement, leadership, culture, communications, and operations.

"My vision is to provide all students with quality instruction and real-world experiences in order to prepare them to compete and prosper in a global economy," said Cunningham. "The Salt Lake City School District's superintendent position is an exciting opportunity for me to scale the successes I've had in Tolleson Union High School District, and to make a difference in the lives of students, staff, parents, and members of the community."

The Tolleson district has a very diverse student population, with 70 percent of students who qualify for free or reduced-cost lunch and 90 percent of students who are non-Caucasian. Salt Lake City School District has 57.7 percent of students who qualify for free or reduced-cost lunch, and 58 percent of the district's students are non-Caucasian.

Cunningham was selected by the school board, based on her experience and abilities related to urban education leadership, instructional leadership, shared governance/collaborative leadership, and relevant work history. She holds a bachelor's degree from Southern Methodist University of Dallas, Texas; a Master of Education in Educational Leadership from Northern Arizona University, in Flagstaff; and a Doctor of Education from Arizona State University of Tempe, Arizona. In her career she has served as a teacher, high school principal, assistant superintendent, and superintendent.

“The board of education has agreed that Dr. Cunningham is an outstanding choice for the superintendent position,” said Heather Bennett, school board president. “She has shown great leadership in past positions. Under her direction, the Tolleson graduation rate has risen to 81 percent for all students in 2014. She has a personal passion to serve as a superintendent of a diverse urban district focused on high achievement, and she is experienced in building a positive, respectful, culturally competent district that is inclusive of all stakeholders and committed to providing quality education for all students.” You can view Dr. Cunningham’s 90-day Entry Plan by clicking here.
